

## Duncan Photography Information

There are two options. The first is a \$400.00 session. We will shoot **OUTDOORS** for 60-90 minutes. There is no limit on poses, props or changes of clothes. Bring the family and pets along as well for some additional photos. You are paying for my time, not what I shoot. You will end up with a disk of all images as well as an identical set online. The price above includes one disk. Additional Disks can be ordered at a cost of \$20.00 each.

We can shoot at a location of your choice or one of several locations that have been used in the past. Please refer to previous Senior/Family photo shoots for ideas of what you might like as a background. The best time for taking photos is about two hours before sunset or as the sun rises.

The second option is a \$600.00 double session. This includes the first session but adds a spring session. Same format and services as the \$400.00 session. The additional \$200.00 is paid when the spring shoot takes place.

Within a couple days, your mildly edited photos will be posted online at:

[www.jduncanphotography.com](http://www.jduncanphotography.com)

You may pick up to five (5) images that can be edited more extensively. Those edited images will be reposted at the end of the original set for your approval. Additional images can be edited at \$10.00 per image. If your editing request is beyond our abilities, we will pass the image on to a Photoshop expert. There will be additional charges for their work.

Once you approve the edited images, a disk of **ALL** the images will be burned. This disk can be taken to any photo lab for reprints. There will be a copyright release located on the inside cover of the disk case. You can also purchase prints from the website as well.

Please contact me if you have any questions. John Duncan: 614-774-8336

**Payment is due at the time of each session.**
